YOUR PRESIDENT'S MESSAGE

DON SWAIN

I am glad the weather is nice again. We can start searching our good spots. We will have find of the month now.

The die for the medal is completed and I will have a sample of the medal to show. We will be taking orders soon.

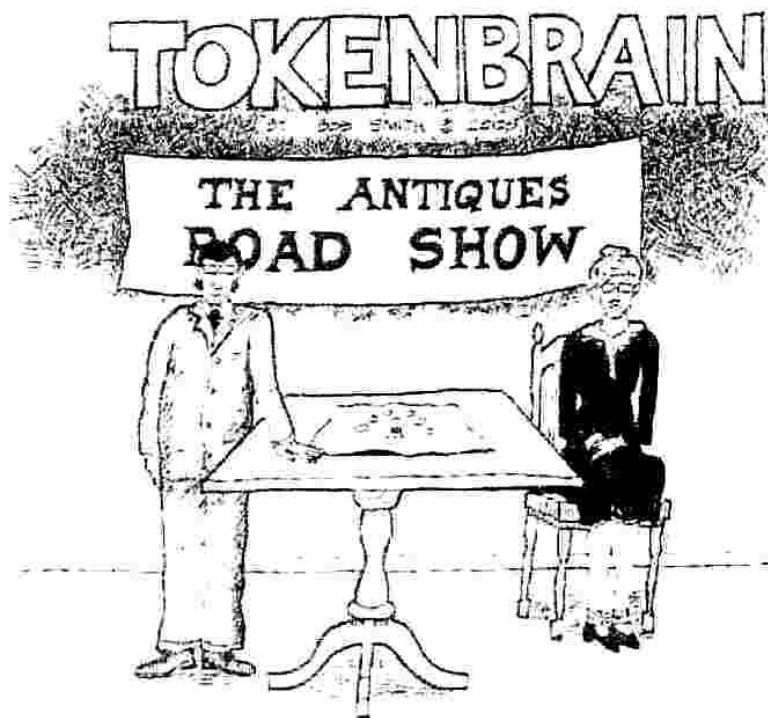

We would like to have some club sponsored hunts. Please bring your ideas to meeting.

THIS MONTH IS THE CUTOFF FOR NEWSLETTER SUBSCRIPTIONS

IF YOU WOULD LIKE TO CONTINUE YOUR NEWSLETTER SUBSCRIPTION (AND YOU ARE NOT A MEMBER OF N.U.T.S.) PLEASE CONTACT ME AT: 801.979.3631 OR 801.254.2846 EMAIL: MARYFAR7@HOTMAIL.COM

FROM YOUR EDITOR

Last month during meeting we discussed having a Directory for NUTS members. Would all members please contact Mary with your current contact information. This would include all the information that is on the membership application. The Treasurer and Editor will update their respective lists and we will make the directory available as soon as possible.

85 YEAR OLD FAMILY HEIRLOOM
OF RED GOOSE SHOE TOKENS
ESTIMATED VALUE:
NOT A DAMN THING

OUR SPEAKER THIS MONTH For our February Meeting Mr. Ross was called unexpectedly out of town on a business related matter and was unable to get in touch with us. Here is a recap:
Jeff Ross is originally from Pennsylvania. He spent 21 years in the United States Army as a Combat Engineer, MP and Recruiter. He is the President of Utah Wheeler's Club. He is also a member of the Utah 4X4 Club and the Nevada Back Road's Club. Jeff spends many weekends per year on the back roads of the state visiting ghost towns and abandoned mines. He has consented to share some of his information with us.

BOTTLES—A FEW TIPS

As always, please leave your dig site better than when you found it.

ASK PERMISSION TO DIG.

Offer a few bottles to the owners. They may not want them but your offer will be appreciated.

The following is a summary of the "Bottle Digger's Code of Ethics" from the San Diego Bottle Club:

- *Respect property rights and all warning signs.
- *To respect both public and private property, always obtain valid permission to search, probe, or dig on the property.
- *Do NOT park illegally and DO park so that others vehicles can get out.
- *Upon entering public or private property, do NOT damage or destroy any property improvements on the site.
- *After digging on a site, try to leave all land and vegetation as it was by taking the necessary time to properly fill all holes and re-root plants when possible.
- *Remove or bury existing litter and all unwanted items from your search area, leaving it cleaner than you found it.

BOTTLE CLEANING

DO NOT attempt to clean your new find in the field. It is easy to break the bottle or otherwise damage the embossing or any label.

First, remove as much loose dirt and particles with a small hand brush or soft bristled toothbrush and follow with a quick warm water rinse. Then use a warm water solution and bleach (be sure to stir first) soak the bottles for a number of days. This should remove most of the excess grime.

Experienced collectors do use cleaning mixtures such as straight ammonia, kerosene, Lime-Away, Mr. Clean, and chlorine bleach. Do not use mixtures that are not recommended for cleaning glass. Do NOT use acids of any type. NEVER mix cleaners as this can create toxic gasses and poisonous vapors and fumes.

After soaking you may then clean with a bottlebrush, steel wool, an old toothbrush, any semi-stiff brush, cotton swabs or dental picks. Be sure to soak the bottles again in lukewarm water to remove any traces of cleaning materials. If the bottle has a label
